

ABOUT ME

A Final year student driven by relentless curiosity. I have immersed myself in the world of Software Development for over 5 years. Self-taught and continuously learning to enhance my skills and staying up-to-date with industry trends. Adaptable and well-versed, I have tackled various projects, ranging from web development to mobile app development and beyond.

EXPERTISE

- Full stack Development
- API Development
- Linux environments
- Replicating Frontend Design

CERTIFICATIONS

Aug 2022 | freeCodeCamp
Back End Development
and APIs

SKILLS

- TypeScript
- React
- Laravel
- Flutter
- Python
- Database design
- MySQL
- MongoDB
- Git
- Linux
- Workflow automation
- Software QA
- Software Design

EXPERIENCES

Freelance | Dec 2018 - Present

Full stack Software Developer

- Developed and deployed diverse web applications, mobile apps, and custom software using various programming languages, frameworks, and technologies.
- Collaborated closely with clients to understand and meet their specific software needs.
- Proficient in problem-solving, troubleshooting, and efficiently resolving technical issues.
- Skilled in project management and communication, ensuring effective coordination with clients, stakeholders, and team members.

Softologics | Oct 2020 - Sep 2022

Backend Engineer

- Successfully completed numerous projects, showcasing a track record of delivering quality software solutions.
- Implemented and improved software development workflows, including the introduction of Git, automated code deployment, code checks (CI/CD), and an API documentation framework.
- Developed and maintained scalable and robust backend systems, ensuring optimal performance and reliability.

EDUCATION

Bachelors of Science in Computer Science

| 2020 - 2024

SZABIST (Shaheed Zulfikar Ali Bhutto Institute of Science and Technology)

Currently in the Final Year

Current CGPA: 3.76
